### EDUCATIONAL GOALS AND EXPECTED LEARNING OUTCOMES:

The purpose of this course is to provide a thorough understanding of the principles of microeconomics

Acquired knowledge and skills will enable students to understand and analyse economic agents' decision making processes and markets functioning within the real economic context.

The understanding of economic agents' decision making processes and of markets' functioning (and failures), will enable students to critically analyse the economic reality and the policy makers intervention.

Students will deal with theoretical and practical (exercises) aspects of the subject in order to acquire methods of analysis which allow autonomous investigation.
